R E N E W E D O R D E R

IT IS ORDERED that South Central Bell Telephone Company ("SCB") shall file an original and 15 copies of the following information with the Commission on or before November 22, 1983. Each copy of the data requested should be placed in a bound volume with each item tabbed. When a number of sheets is required for an item, each sheet should be appropriately indexed, for example, Item 1(a), Sheet 2 of 6. Include with each response the name of the witness who will be responsible for responding to questions relating to the information provided. Careful attention should be given to copied material to insure that it is legible. Where information requested herein has been provided along with the original application, in the format requested herein, reference may be made to the specific location of said information in responding to this information request. When applicable, the information requested herein should be provided

for total company operations and Kentucky jurisdictional operations, separately. If neither the requested information nor a motion for an extension of time is filed by the stated date, the case may be dismissed.

Note: These three questions constitute a continuation of Staff Information Request No. 7 dated November 4, 1983, in Case Nos. 8847 and 8879, and have been necessitated by incomplete or inadequate responses to that request.

1. Explain in detail why the residence MTS equation includes only one seasonal binary and the business MTS includes two rather than the full complement of seasonality variables as in the access line equations.

2. For each of the printouts of the data series provided in response to Item 22 of Staff Request No. 7, identify the numbered observations by year.

3. Supply either original sources or photocopies of the original sources (e.g., Survey of Current Business) of data for the following variables:

A) $L(t)$, $P(1t)$ and $P(2t)$, CPI-U, $Y(t)$ in the residence access demand equation.

B) $L(t)$, $P(t1)$, and $P(t2)$, TPI(t), CPI(t) in the business access demand equation.

C) $P(t)$, $Y(t)$ in residence MTS equation.

D) $P(t)$, $Y(t)$ in business MTS equation.

Done at Frankfort, Kentucky, this 15th day of November, 1983.
